Yes, that's it! I blame Microsoft for not autocorrecting it for me.

Hi all,

There is not a time bracket that works for everyone to join the call in May. We would like everyone to participate if possible, therefore I will be sending out a second doodle poll for the first week in

June. Similar to the last it will contain a few days and times that work for our EPA team and hopefully will be convenient for you all as well. If we still cannot all get on one call, I will just have to pick a time that works for the most people.

Sorry for the mass of emails, we just want to make sure we receive everyone's input on the pilot program.

Thank you,  
Christina
